## USING THE FORCE OF NATURE TO FIGHT VIRUSES & BACTERIA

Letsanify is here... a revolutionary natural advanced antiseptic and disinfectant that kills 99.999% of all bacteria and viruses including SARS, E. COLI, MRSA and according to leading UK laboratory BLUTEST, it kills CoV-2 and COVID-19.

Its key ingredient is hypochlorous acid (HOCL) a natural particle created by our own immune system to eradicate invasive organisms and fight infection.

Letsanify contains no alcohol or harmful chemicals and can be applied without the need to use protective clothing (PPE). This safe and effective multi-purpose liquid works as a surface cleaner, hand rub and with fogging equipment to spray large areas and sanitise the air. Its cleaning application is endless.

## THE SAFER ALTERNATIVE TO CHEMICAL SANITISERS

**Letsanify** is completely safe for people, babies and pets when used frequently as a surface cleaner or hand rub.

**Letsanify** is an exceptional sanitiser killing 99.999% of viruses on contact. This safer alternative to chemical sanitisers is alcohol free, environmentally safe, made from 100% natural ingredients, vegan friendly and halal certified.

**Letsanify** is the first line of defence for minor accidents in the home, whether it is a cut, bruise, burn or a scuff. They all respond positively without any negative reaction soothing and killing germs.

Babies and young children have been known to suffer from reactions to chemical-based disinfectants, whereas Letsanify will not sting or cause any discomfort.

**Letsanify** is also the perfect first aid spray for the medicine cupboard. Easy to use, convenient and perfectly safe for mothers with babies and children. Kitchen floors and other such surfaces

including high chairs benefit from its gentle and effective action. Babies skin, particularly nappy changing routines also benefit from its effectiveness.

**Letsanify** has been tested in hospital microbiology departments worldwide, independent UK labs and complies with all necessary certification for both human and animal use.

## SAVES TIME & KEEPS YOUR EDUCATION COMMUNITY SAFE

**Letsanify** is a revolutionary natural advanced antiseptic and disinfectant that kills 99.999% of all bacteria and viruses. We understand protecting the wellbeing of staff and students is a top priority. In the advent of the recent pandemic the education sector is facing many new challenges to ensure their premises remain a clean and safe environment for all. Letsanify is a highly effective solution to these sanitising requirements.

# LETSANIFY

## THE SOLUTION TO DISINFECTION FOR THE EDUCATION SECTOR.

Students and staff can meet safely knowing that they are being protected from the spread of dangerous viruses and bacteria.

Letsanify is superior when choosing a highly effective sanitisation formula. This versatile liquid works as a surface cleaner, hand rub, air sanitiser (fogging), is completely natural and kills 99.999% of bacteria. This revolutionary water-based liquid contains no harmful chemicals and therefore will not lead to long-term health issues for students and staff caused from using and being exposed to regular detergents and sanitisers.

Health experts, the NHS and the WHO are advising us to use sanitisers with at least 60% alcohol content to be effective against life threatening viruses like COVID-19. However, Letsanify is the ideal alternative. It is alcohol free, environmentally safe, made from 100% natural ingredients, vegan friendly and halal certified, ensuring the ethical and religious principles of your students and staff are not compromised.

We understand the challenges facing schools to follow the government guidelines around social distancing and 'bubbles' to reduce the risk and spread of infections without curriculum implementation being jeopardised. Fogging with Letsanify is the perfect solution between 'class bubble' changeovers. In minutes you can sanitise specialist teaching rooms and large spaces allowing lesson timetable changes to be minimised. This process will also address the key issue that many schools face at break and lunchtimes due to the capacity of dining rooms and the extra staffing required to get all their students fed in a timely and safe manner.

Please feel free to contact us to find out how Letsanify can support your school's health and safety risk assessment.

## FOGGING WILL TAKE YOU TO THE NEXT LEVEL OF CLEAN

The combination of fogging with Letsanify is formidable. In fact, it kills 99.9999% of all bacteria, viruses, moulds and fungi and will also sanitise the air killing any harmful germs.

Where conventional cleaning is simply not adequate, fogging with Letsanify is effective at killing a wide range of pathogens including SARS, E. COLI & MRSA and according to leading UK laboratory BLUTEST, it kills CoV-2 and COVID-19. In the recent wake of the pandemic, it is no wonder businesses and organisations across the globe are choosing Letsanify for the disinfecting and sanitising of their premises.

Fogging machines work by spraying a fine mist of liquid across large spaces fast and efficiently.

This process is ideal if you need to clean large spaces such as restaurants, schools, fitness gyms and places of worship...anywhere you have a regular turnover of people. It is also completely safe to spray without PPE.

Letsanify is also environmentally safe, made from 100% natural ingredients, alcohol free and contains no harmful chemicals, avoiding long term health issues caused from using and being exposed to regular detergents and sanitisers.

For more information about Letsanify and fogging processes and products or to arrange a demonstration, please contact us direct on...

## FOGGERS

The combination of fogging with Letsanify is formidable. In fact, it kills **99.9999%** of all bacteria, viruses, moulds and fungi and will also sanitise the air, killing any harmful germs. There are many fogging machines available on the market suitable to different tasks depending on the size of the area required to be sanitised. We can supply you with the right fogger for the job at hand.

### PW35 ELECTRIC HAND HELD FOGGER - 3L

The perfect machine to mist large spaces with a spray distance of 5-10 metres. Droplets are produced at 5-50 microns making Natursan effective at killing 99.9999% of bacteria and viruses. Powered by a 1250W electric motor.

Price available on request.

### RDW ELECTRIC PORTABLE FOGGER - 4.5L

Effective at misting large spaces to a distance of 8 metres. Plugged directly into mains produces 1400W with a wire length of 5 metres.

Price available on request.

### MINI MISTER - 300ML

Continuous water mist trigger sprayer ideal for effectively misting small areas like office desks or work benches.

Price available on request.

## CREATING SAFER ENVIRONMENTS FOR PATIENTS & EMPLOYEES

**Letsanify** is a revolutionary natural advanced antiseptic and disinfectant that kills 99.999% of all bacteria and viruses. We understand protecting the well-being of employees and patients is a top priority. In the advent of the recent pandemic the healthcare sector is facing many new challenges to ensure their premises remain a clean and safe environment for all. Letsanify is a highly effective solution to these sanitising requirements.

## THE SOLUTION TO DISINFECTION FOR THE HEALTHCARE SECTOR

Letsanify is the natural solution for cleaning and disinfection in the healthcare and private dentistry sector.

Where chemically based cleaners and sanitisers are often harsh creating problems for the user, Letsanify is an extremely effective treatment for biofilm and can be used for sterilisation of surfaces and equipment. Testing was conducted at a major private hospital proving that sinks, baths and shower drain systems containing a 'P' trap or U-bend which are problematic areas for the accumulation of bacteria, can be treated effectively thereby reducing risks of infection and cross contamination.

### ALCOHOL FREE

Letsanify is an exceptional sanitiser killing 99.999% of viruses on contact. Health experts, the NHS and the WHO are advising us to use sanitisers with at least 60% alcohol content to be effective against life threatening viruses like

COVID-19. However, Letsanify is the ideal alternative. It is alcohol free, environmentally safe, made from 100% natural ingredients, and contains no harmful chemicals, avoiding long term health issues caused from using and being exposed to regular detergents and sanitisers.

Where conventional cleaning is simply not adequate, Letsanify is effective at killing a wide range of pathogens including SARS, ECOLI, MRSA and according to leading UK laboratory BLUTEST, it kills CoV-2 and COVID-19. It is no wonder businesses and organisations across the globe are choosing Letsanify for the disinfecting and sanitising of their premises.

Letsanify has been tested in hospital microbiology departments worldwide, independent UK labs and complies with all necessary certification for both human and animal use.
